## NORTHERN EMPIRE NEEDS RAILWAYS

### Well Known Prospector Points Out That Edmonton's Future Depends on Opening of Peace River

That three transcontinental railways will be rushing lines up through the Peace River country within the next two or three years, that they will be racing, sooner or later, for a prior claim through the now famed Pine Pass to the North Pacific, is the firm belief of Malcolm J. Campbell, pioneer prospector, who has returned to Vancouver from a trip north in which he located several thousand acres of Northern B. C. lands.

Campbell is one of those big, husky, sun-burned square-jawed, quiet, determined-looking chaps, that are the type of western pioneers. A man with a vision that is prophetic, a breadth of mind and view that is as big as the country he is so fond of, a quiet enthusiasm that is nevertheless strongly contagious. To listen to his talk of the Peace River country, its vastness of range and of possibilities, is refreshing.

To Campbell the future of the entire west lies in the future of the great Peace River country. By the Peace River country he means all of that vast empire of clear prairie land that stretches down from the foothills above Fort St. John and out across the Alberta border, east to Fort Vermilion, and south to Grand Prairie. During the past few months, Campbell has ridden, driven, walked, snow-shoed, dog-trained over that whole country, and in that time he has studied the situation, and he has realized with his wide and ready grasp of such things that the last great empire of the west lies within the area referred to under the title of the Peace River country, that it is inevitable that transcontinental railways will be battling for territory within a few years, or even months, through this vast imperial country.

He has seen the possibilities of this empire of trade and commerce will sweep, within a very short decade, to the very utmost reaches of the Peace.

An empire of land capable of supporting an empire of people, is the way Mr. Campbell describes it. He is characteristically blunt out, when talking to the Capital, "It is the biggest country I ever set eyes on."

"As far as the eye can reach, one can

## "REFORM MAYOR" OF ANOTHER COLORED CLEVELAND DIES SUDDENLY

### Tom L. Johnson, Noted Single Tax Advocate, Succumbs to Lingering Disease.

#### WAS ENEMY OF STREET RAILWAY CORPORATIONS

Due to His Fight for Three Cent Fare, Largely Responsible for Elimination of Dens of Vice in His Home City—Business and Political Rival of Late Mark Hanna.

Cleveland, Ohio, April 11.—Tom L. Johnson, former mayor of Cleveland, died in his apartment in the White Hall east 107th street, at 8:45 o'clock last night, after a long illness. Death was caused by cirrhosis of the liver. He was 57 years of age.

Tom L. Johnson, who, at the height of his brilliant career aspired to a national reputation as "Reform Mayor" of Cleveland, was born in Scott County, Ky., July 18, 1854. His father, Col. Albert Johnson, was a wealthy planter and a soldier, he returned to a round home after the great civil conflict had ended. During the war, Johnson was poor, they were compelled to shift for themselves. Tom a mere boy at that time, was compelled to aid in the shifting. Toward the close of the war, when his family was in need, Tom, then ten years of age, began to earn money by selling papers on the trains. A friendly conductor helped him by giving the boy monopoly as a news vendor and the \$20, which Tom realized from his venture, assisted materially in defraying the expenses of the removal of the family from the devastated plantation to Louisville, when Col. Johnson returned home after peace was declared.

After a short time the family removed to Evansville, Ind., where Tom received his early education. The reduced state of the family finances made it impossible for Tom to obtain a higher education, and he was obliged to go out into the world to earn his own living. At the age of seventeen he obtained work as an office boy with a steel making firm in Louisville. He learned every detail of the business and was promoted rapidly. His inventions soon attracted the attention of the Louisville Street Railway Company and it offered him a position, which he accepted. Two years later he was superintendent of the road.

He was married when about twenty years of age. "What a wonderful woman who carried a wife!" his prospective father-in-law asked Tom. "These two hands," the reformer said, "were characteristic of the man and woman his wife."

In 1876, with capital furnished by a wealthy relative and friend, Mr. Johnson bought a street car line in Indianapolis for \$20,000. This was before the days of electric street cars. The cars of Johnson's line were drawn by South.

(Continued on page five)

### Approximately Three Hundred Negroes Leaving Oklahoma Districts for Edmonton.

#### TO LOCATE IN VICINITY OF ATHABASCA LANDING

Heads of Families Coming as Adventurers, Guard, Bringing With Them Special Train Load of Stock and Agricultural Implements—Do Not Anticipate Any Trouble in Getting Across the Boundary Line.

Edm., Okla., April 11.—Within the next few days it is estimated that at least one thousand negroes will leave from the northern and central part of this state for Alberta where they will form colonies in the vicinity of Edmonton. During the past two years approximately four hundred have left for the north and the encouraging reports which they have sent back have been instrumental in inducing their friends in this state to migrate north.

In the vicinity of this city two hundred negroes have sold their farms and a large amount of their stock preparatory to leaving for Alberta while twenty families from Dallas and sixty from the vicinity of Guthrie are also making arrangements to migrate. The heads of families will leave Guthrie by special train, taking with them wagons, horses, cattle and other stock and upon reaching the Canadian province will secure their claims and put in their crops after which they will return to assist their families to their new homes.

The fact that the Dominion government is not encouraging negro immigration has not deterred the colored people from moving northward. They point out that they have always been citizens in this state, have plenty of money and are well equipped to commence farming on a modern scale. They are not afraid of the white people. They do not anticipate any trouble, other than the usual medical examination, and they are ready to go. The majority will start for the north next week or in robust health and are confident that they will be allowed to enter the Dominion unchallenged.

## FIFTY HOMESTEADS FILED ON TODAY

### New Record Is Established at Dominion Land Office—Hundreds After Land.

Surpassing all previous records, the local land office this morning took in fifty applications for homesteads. The applications were filed between 9 o'clock and 11 o'clock. Before closing hour tonight this number will have increased to close on 100.

Standing three deep along the land office counter, newly arrived settlers are plunking down their \$10 fee and waiting for the Dominion government that they will stay on a quarter section of land in Alberta for three years. The majority are anxious to enter into this venture. Some of the would-be Albertans have travelled many hundreds of miles from far away foreign lands, to get into this water, only to leave to go to some of the good Alberta soil that they can claim their own for \$10 and three years' work. Some of them have worked nearly a life time for such less.

If the present rate of entries keeps up, all records of any kind ever made in the land office will be surpassed. The last eight days of this month a total of 325 entries have been made, which is more than 2 1/2 of the total entries for the entire year. The last year, more than 1,700, the total for March last year.

Over night each candidate had to file a statement of the results of the election. The results of the election were as follows: E. B. Duke, K.C., by 1,785 to 1,782. In January, 1910 Duke's majority was 26, in 1906 there was an electoral majority of 85 and before that the seat had given him United Majors. The numerical majority is thus reduced from 122 to 120.

## PUBLICITY DEPARTMENT MEETS HAS BROUGHT 900 SETTLERS DURING THE PAST FOUR DAYS

### CHEAP RATES FOR THE SPRING SHOW

#### Railways to Give Fare and a Third Rate From Points Within 200 Miles.

After a stiff fight with the passenger departments of the three railways operating in Edmonton, and after being once refused his requests, Secretary Harrison of the Edmonton Exhibition has succeeded in securing cheap rates for the first spring shows to be held April 26 and 27.

The three railways have agreed to give tickets for one far and a third, within a 200 mile radius, tickets good coming April 25 and 26, and good returning April 28th. This will cover the aviation meet that is to be held also in Edmonton on the 27th, 28th and 29th.

Secretary Harrison states that the success of the spring shows is assured, and that the centres far surpassed in number all expectations.

## CAPITALIST PAYS EDMONTON A VISIT

### Has Large Holdings in the West and Intends to Make Further Purchases.

With large investments all over Western Canada, and with several hundred thousands already invested in Edmonton, C. M. Miles-Bailey, a prominent English capitalist, is visiting Edmonton today with the possible intention of making further investments here.

Mr. Miles-Bailey is a guest at the King Edward, having come up from the south this morning with Lord Lovess, Calgary. The capitalist has been one of the most extensive English investors in Western Canada, and particularly Edmonton, and he is here for the purpose of looking over his property, and probably adding to it.

Five months ago, Mr. Bailey visited Edmonton, and through the firm of Lovess and Co., invested a large amount in city property, and also in Calgary property. He is largely interested in sub-division property held by Mr. Lovess.

Mr. Bailey also holds a share in the famous estate at Vernon, B. C., controlled by Lord Aberdeen. Speaking of Calgary, the capitalist said that he would be in the city for several days. He was well acquainted with the city, and greatly interested in its growth and progress.

## ASYLUM WILL BE READY ABOUT MAY

### Hon. Arch. McLean Returns From an Inspection of the New Building.

After an inspection trip to the provincial asylum at Banff, Hon. Arch. McLean, provincial secretary, returned yesterday to the city.

The asylum building is about completed, and will be ready for occupancy some time in May. Dr. Dawson, of Calgary, who was recently appointed superintendent of the institution, will take charge at once. There are several outbuildings to be finished before it will be possible to bring up the 150 Alberta patients now in the Brandon asylum.

Mr. Dawson is now busy engaged in staff for the asylum.

## CALGARY CITY HALL CASE.

Calgary, April 11.—An arbitration award has been handed into the courts which it is hoped will settle the long disputed Calgary city hall question. The award, made by the arbitrator, Mr. J. H. Macdonald, is that the city must pay \$12,449.62 to the contractors for the city hall.

## PREMATURE EXPLOSION.

Ottawa, April 11.—Chumann, powderman, while working behind a black hole drilled a hole which exploded, blowing him down and part of his left hand was blown off and his right wrist was dislocated.

### Immigrants Sent to Province Through Other Mediums Brings Total Up to Twelve Hundred

## MAJORITY WILL LOCATE IN THE VEGREVILLE DISTRICT

### Large Number of Excursions, Which Will Result in Thousands of Prospective Settlers Being Brought to Alberta, Are Planned for Summer

By actual count of railway tickets, the publicity department of the Alberta government has introduced to the province to date 1,000 more bona fide settlers within the past three or four days, settlers from the old country, the states, and eastern Canada. Chief Publicity Commissioner Hotchkiss gave this information to the Capital this morning, by way of giving some definite idea to just how many new people have come in through the medium of his department, in the tremendous rush since Saturday morning.

With the addition of 55 Hollanders, 150 French families, and other odd parties brought through other medium, the total number of new arrivals since Saturday is placed at 1,200.

The 900 odd settlers brought on by the publicity department came in four separate excursions. From Montreal came 500 settlers from Europe, and eastern Canada, while the remainder themselves all along the line from Calgary northward, every little town getting in a share of the party. The majority of them, however, went through to Vegreville and will settle in the St. Paul district.

On the excursion from Toronto came over 200 settlers to Edmonton. From Great Falls, Mont., Commissioner Clarke brought a similar number to the south of the province. From Wisconsin, H. M. Kenny, of the International Land Co., brought two carloads of buyers who will purchase land.

That the publicity department has full expectations of keeping up the record they have created in bringing 900 settlers in three days, was stated by Mr. Hotchkiss this morning. All of

## SCORE OF LIVES LOST IN WRECK

### Steamer Iroquois Goes Down and Majority of Passengers Meet Death in Waves.

Victoria, April 11.—In the wreck of the little steamer Iroquois, yesterday, a large number of the passengers and crew were drowned. Estimates varying from 3 to 25. First bulletins stated it was thought that all those on board had been saved with the exception of A. G. Munroe, the purser.

At 1 p. m. it was estimated that there were between 20 and 30 passengers, the first estimate being made by Captain Sears and the second by the master of the Victoria and Sidney Railway company. The crew numbered 12. Of those drowned among the crew are: A. Olson, (boatman), two Chinese coolies, D. N. Davidson, A. G. Munroe (purser), and John Bryden, Miss Isabel Fenwick and Miss Susan Fenwick, Jan. Jackson, an Austrian, P. McPhillips, of Thross-Burden, Wales.

The bodies of all the known dead have been recovered except those of Mrs. Houston and her son, the sister of Miss Isabel Fenwick, and D. N. Davidson, a deck hand.

On another man's body which has been recovered was a ring bearing the initials P. M. Eight weeks are passing in the missing. Their names are not obtainable. Capt. Sears came ashore with a number of others, but a rift made of a part of the wreck.

Wreckage is scattered along the coast of Vancouver Island and in the straits between the islands. Captain Sears, the engineer and two deck hands who landed at Armstrong Point, were within 200 yards of a stranded lifeboat, whose occupants were drowned, but were unable to reach them. A rescue party, sent out from the steamer, was within sight of the people struggling in the water.

Sheddell, (G.A.P.), April 11.—Col. Vickers, head of the great shipbuilding firm, says they have got a contract from the Canadian government for the establishment of a repairing dock at Montreal, which will be built here and taken out.

## DOMINION GOVT. TO MAKE TEST OF McMURRAY ASPHALT

### ORDERS GIVEN TO EXPLORER TO BRING OUT TWO TONS, WHICH WILL BE REFINED AND TESTED THOROUGHLY BY EXPERTS.

Edmonton is not the only place this summer that a test of asphalt from Fort McMurray will be made.

The department of interior of the Dominion government are preparing to have a thorough test of the asphalt made, under the hands of experts who will be engaged for the purpose.

Orders to bring out two tons of the asphalt for this purpose have been given by the department of F. B. Crean, who is exploring on behalf of the government this year in the McMurray district. The asphalt will be brought out this summer, and turned over to experts in the United States to make a thorough test of it for all purposes.

J. L. Cole, M. P. P. for the Athabasca county, was the first man to suggest that the Dominion government take up the matter of making a test of the asphalt. Mr. Cole made the suggestion over a year ago to Mr. B. E. Young, chief geologist of Canada, while he was visiting here. Mr. Young immediately acted upon the suggestion, with the result that the test will be made this year.

"It will be necessary to refine the asphalt before making a final test of it," said Mr. Cole, talking to a Capital man yesterday. "The asphalt does not come from the deposits at McMurray in any condition to use. That is why the government is turning over the asphalt to experts."

## TRAVELLED 3000 MILES TO REJOIN AN ANXIOUS MOTHER

### FILIAL LOVE IS STRONGER THAN WANDERLUST FOR YOUTH OF 16, WHO REACHED EDMONTON FROM CINCINNATI ON SATURDAY.

Journeying 3,000 miles from far-away Cincinnati, Ohio, to Edmonton, to join his parents, from whom he had been absent for over a year, George Ennis, aged 16, reached the city on Saturday night, and was turned over to an anxiously waiting father yesterday afternoon.

Mr. Ennis proved stronger than the wanderlust that seized youthful George, when he departed from his home over a year ago. George landed in Cincinnati, eight months ago, penniless, nearly starving, without friends, tired of wandering, his curiosity satisfied, with greater desire filling his lonely heart than to be placed once more safely at home with his parents.

The boy appealed to the working

## GOVERNMENT PLANS MAN EXTENSIONS

### Construction of Through Telephone Line Between Edmonton and Calgary Commenced.

With a programme of telephone extensions planned throughout the province, which will be fully, if not more comprehensive than that carried out last year, the provincial telephone department have commenced on their work for the season, with the starting of the new through line from Edmonton to Calgary and Lethbridge.

The new through line will provide direct and uninterrupted connection between the three cities. The line formerly in use, was connected with all towns en route, and made it almost impossible to handle all long distance over the one trunk. Upon completion of the new line there will be practically two long distance trunks in operation, making it possible to handle more business.

## Extension to Entwistle.

The telephone network in this province is to be extended as far as Entwistle, on the G. T. P., 60 miles west of the city. This summer, and this extension will be ready for use fairly early in the summer. Next year it is expected that the extension will be carried on to Edmonton.

The line is now in operation as far as Wabamun.

It is now intended to extend the line to the river, and the result of the extension is considerable demand for a line at the Landing, there is not much business in route to warrant the extension of the line northward.

There is a large tract of country over which the line would be of great service, there was thought to be no business. Other extensions are to be made along new lines of railway this summer.

# "SANTA ROSA"

Now on the Market at a Price Within the Reach of Everybody

## "SANTA ROSA"

Has every City Convenience: Waterworks, Telephone, Electric Light, Street Cars, Canadian Northern and the Grand Trunk Pacific Railways.

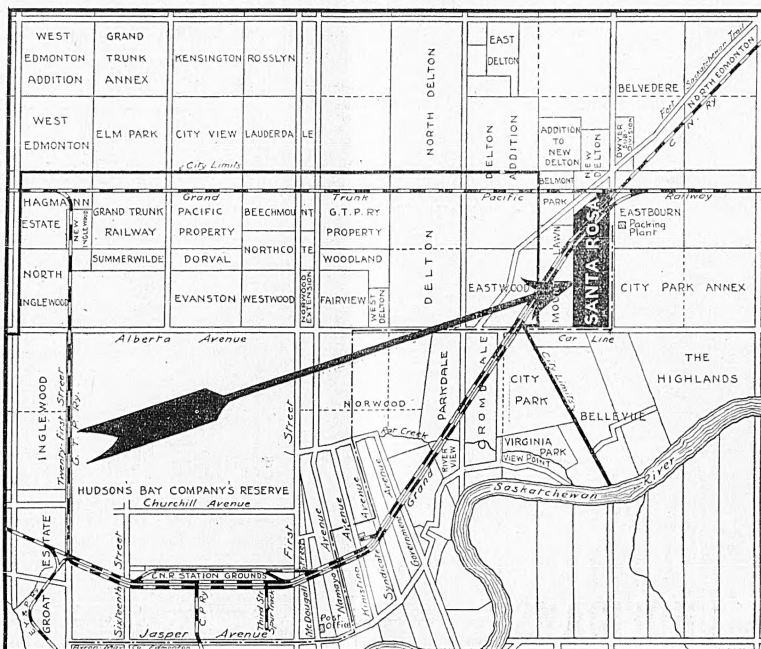

It is easy to reach and well situated for people who purpose to work either at the Packing City or in Edmonton.

SANTA ROSA has Stores, Hotel and Business places incidental to the big Packing Plant.

Take a car and see this property and be convinced, or let us take you out.

## ADVERSE DECISION FOR GOVERNMENT

Big Frauds in Alaska Coal Lands Alleged—Question of Foreign Corporations' Right to Hold Claims.

Seattle, April 10.—The government yesterday lost its first case in the effort to punish the alleged fraudulent holders of Alaska coal lands. Judge Hanford, in the United States district court, in overruling the motion to instruct the jury to acquit Messrs. Chas. F. Mundy, Earl E. Slesley and Archie Shields, sustained all the vital points contended for by the defendants.

The ground on which the judge refused to grant the motion to acquit was not raised by counsel for either side in the suit, but by the judge himself.

The lands in question are the "English" or "Sir Edward Stracey group." They are the most valuable coal lands in the world, being even richer than Cunningham claims. Estimates of their value range from one hundred million dollars to a much larger sum.

The defendants, together with Mr. Alexander Stracey, a brother of Sir Edward Stracey, were indicted at Tacoma last fall, charged with conspiracy to defraud the government. Mr. Stracey remained in Vancouver, B. C., and avoided arrest. Trial of the case was begun last Tuesday. After the jury had been completed counsel for the defendants moved for instruction to the jury to acquit the defendants.

The argument of the attorneys for the defendants was based almost entirely on the contention that the 1901 law applied to Alaska coal claims, instead of the general land law of 1873, while the attorneys for the government insisted that the prohibition of the law of 1873 should be read into the law of 1901.

Inasmuch as the law of 1901 in terms permits the assignment of coal claims, the defendants' counsel argued that it was not illegal for defendants to agree to assign their coal claims, which was a legal act. Furthermore, defendants' counsel contended that if it is legal for a lessor to assign his claim, it is equally legal for any person to buy as many of such assignments as he can pay for, thus removing the very foundation from the indictment upon which defendants were indicted.

The court's decision today sustained all the contentions of the defendants, but raised a new one in the following words: "A foreign corporation cannot lawfully acquire or hold a coal claim in Alaska either in its corporate name or in the name of any agent or trustee. Therefore, for the reason that the indictment charges a conspiracy to acquire coal claims or proprietary rights

on the ground left, for there is no appeal from to-day's decision. The government counsel, Messrs. B. D. Townsend and S. H. Tush, say that today's ruling is not final, and that the other cases will be prosecuted and the Alaska coal claims forfeited.

At the request of Mr. Townsend the court took a recess until tomorrow morning to permit the government to rearrange its evidence to proceed with the trial in accordance with the ruling of the court that the "foreign corporation conspiracy" was the only cause in the indictment upon which the trial can proceed.

## POLITICS AND POLITICIANS

Judge William Reed, of Paducah, Ky., entered the race for the Democratic nomination for governor of Kentucky.

In several instances the women voters were a deciding factor in the recent city and town elections in New York State.

In Oswald, West Oregon has one of the youngest governors of any of the States. Governor West will celebrate his thirty-eighth birthday next month.

Governors Wilson of New Jersey, Dix of New York, Foss of Massachusetts, Plaiside of Maine and Harmon of Ohio have been invited to speak at a Jefferson day celebration in Newark, N. J., this month.

A. J. Grona, the new United States senator for North Dakota, has taken an active interest in educational affairs ever since he began his career years ago as a teacher in a little red schoolhouse in Minnesota. He has served on the board of education if his home town and as a member of the board of regents of the University of North Dakota.

At the general election in Arkansas next year a vote will be taken on the proposal to amend the constitution of the State by inserting the "grandfather clause" for the qualification of voters. The legislature has already taken the action necessary to submit the amendment to a vote of the people.

There are two Indian members of the Maine legislature, who represent the Indians of that State. They are assigned seats in the rear of the chamber, but have no vote in the proceedings. Their purpose in the legislature is to give the Indians' side when various matters pertaining to their constituents welfare are under discussion.

Exclusive Patented to Rogers, Smith & Kelly & Moore.

After an umbrella has been in use for a short time, put a drop of oil in the centre of the top about once a month. This prevents the ribs from rusting.

Fish that is to be fried should be ordered to be sent early, as it cooks much better if previously rolled some time in a clean cloth to insure perfect dryness.

Cotton gloves to wear in doing housework are cooler and better in every way than old kid gloves. If bought especially for this purpose get a size larger than usually worn.

G. A. D. VETERANS AT FRESNO. Fresno, Cal., April 11.—Fresno is profusely decorated in the national colors in honor of the Grand Army veterans of California and Nevada, whose annual department encampment opened today for a session of three days. Nearly 2,000 visitors are in the city, including many members of the Woman's Relief Corps, Sons of Veterans and other organizations affiliated with the G. A. D. The spectacular feature of the programme will be the big street parade tomorrow.

TO DISCUSS. COTTON MANUFACTURE. Boston, Mass., April 11.—Many questions relating to cotton manufacture will be discussed at the annual meeting of the National Association of Cotton Manufacturers, which will begin a two days' session in this city tomorrow. Many of the Southern members of the association arrived in Boston today in anticipation of the meeting.

KNIGHTS OF HONOR MEET. Louisville, Ky., April 11.—Louisville, which was the birthplace of the order in 1873, is entertaining this week the annual meeting of the Kentucky grand lodge of the Knights of Honor. Grand Director Edward Dreif of this city is presiding over the sessions, which will continue for several days.

### CROWN PRINCE OF GERMANY GIVEN AN IMPORTANT POST

Berlin, April 11.—After four years as commander of the imperial infantry guard at Potsdam—the Kaiser's body-guard—the Crown Prince becomes commander of the corresponding cavalry regiment, the famous "Deaths" Head Hussars," at Danzig. His imperial father's choice of so distant a post surprises military circles in Germany, as it was thought certain the new command would be, if not in Potsdam itself, at one of the next most desirable stations, Hanover or Breslau. The Crown Prince and his family will not live in Danzig town, but in Langfuhr, where a large villa has been rented. Here the heir to the throne will reside, not on a court footing but as an ordinary general, and will have few social interests apart from those of his command. Meantime the marble palace, the Crown Prince's home in Potsdam, will be kept up with a view to occasional visits from Danzig and its environs, and occupation when the present command expires at the end of two or three years.

### END OF FAMOUS OLD PLAYHOUSE.

New York, April 11.—The old Thalia Theater on the Bowery, the oldest and at one time the most famous playhouse in New York, was put up for sale at public auction today to wind up the William Kremer estate, owners of the property. The Thalia was practically destroyed by fire four times and each time it was rebuilt and opened within ninety days. It was the first theater in the world to be lighted by gas. The house was the scene of Edwin Forrest's first appearance as a tragedian in 1875; of Mallard's last appearance in America, in 1887; of Charlotte Cushman's debut as Lady Macbeth, in 1896; and of the first production of "London Assurance," in 1912. In 1879 the building was acquired by William Kremer, owner of the Atlantic Gardens, next door, and made into a German theater. Of late years the house has been given over exclusively to Yiddish drama.

### MISSISSIPPI MEDICAL MEN.

Jackson, Miss., April 11.—The annual meeting of the Mississippi Medical Association has attracted to this city a large gathering of leading physicians and surgeons of this and the neighboring States. The sessions were begun today and will continue over Wednesday and Thursday.

Rexall Orderlies are a gentle, effective, dependable and safe bowel regulator, strengtheners and tonics. They re-establish nature's functions in a quiet, easy way. They do not cause any inconvenience, pricking or nausea. They are so pleasant to take and work so easily that they may be taken by anyone at any time. They thoroughly tone up the whole system to healthy activity. Rexall Orderlies are unsurpassable and ideal for the use of children, old folks and delicate persons. We cannot too highly recommend them to all sufferers from any form of constipation and its attendant evils. Two sizes, 10c and 25c. Remember, you can obtain Rexall Remedies in this community only at our store—The Rexall Store, A. Archibald.

Children's Goat Seal Handbags, solid leather lined. Special ..... \$2

### CONGRATULATIONS FOR JUSTICE HUGHES.

Washington, D. C., April 11.—Associate Justice Charles E. Hughes received the congratulations of his colleagues on the United States supreme bench today, this being the forty-ninth anniversary of his birth. Justice Hughes is the youngest member of the supreme court and will have to serve some twenty years more before he will be eligible to retire on full pay.

"We won't print any such stuff as that," said the editor lustily, as he handed back the manuscript. "Well, you needn't be so haughty about it," retorted the irregular contributor, "You're not the only one who won't print it."

An American newspaper correspondent, who followed the government army in the recent revolution in a Latin American country, tells a story about an experience that he had with the general commanding the division. The correspondent observed that in every town that the troops invaded they would help themselves to everything that was not nailed, screwed or anchored down.

This did not appeal to the American's ideas of the rules of war, and he reported the misdeeds of the soldiers to the commander.

"That is selfish," said the latter, indignantly, "I will see to it that when we reach the next town you will have the first chance." The correspondent confined himself thereafter to writing of "copy."

### SALE OF ENGLY LIBRARY.

Boston, Mass., April 11.—Book collectors and dealers from various parts of the country were on hand today for the opening of the sale of the private library of the late Eugene Engley of Colorado. The sale is one of the most notable that has taken place in Boston in several years of his life to the collection of a valuable library that included many editions of de luxe and American rare books, newspapers of the early colonial period, and works on Indian history, including the rare Cherokee laws.

### Tom L. Johnson A Pioneer in a Field All His Own

By the demise of Tom L. Johnson in Cleveland yesterday there came to a close the career of a man who was a pioneer in a field all his own and whose memory will live for many and many a day.

United States has had many accomplished statesmen and many sincere reformers, but Tom Johnson was of his kind the first and alone.

Brought up in meagre surroundings, Johnson commenced life as a street car conductor in the horse-car days, and the advent of the trolley found him the owner of a string of franchises of immense value. Being a natural student of human events and having an immense capacity for studying out cause and effect, Johnson concluded that the single tax theory as elucidated by Henry George furnished the panacea for more of the industrial and economic ills than any other one thing, and, while yet a young man, physically sound and mentally exuberant, he gave up the stock market, the franchise grabbing and the hope of gain, and dedicated himself and all the millions he had made to one grand and continuous battle for what he called "the rights of the common people."

In his fight, Johnson emerged from comparative obscurity to become a national figure. In the period of his greatest activity there was no man in United States more hated or feared by the big interests. In an endeavor to defeat him for mayor of Cleveland and to frustrate him in his famous automobile campaign for the governorship of Ohio, there were millions upon millions spent, from sources which could only be guessed. But with all the forces of privilege turned against him, Johnson came so close to becoming democratic presidential candidate that there must have been some chattering teeth and cold feet along Wall Street.

In the end, Johnson died poor, but if he spent all his millions he undoubtedly had greater joy in the spending than most millionaires have in the keeping or even in the making, and he was one glorious fighter, whose name will live and whose fame will grow as time gives the true perspective to the gorgeous spectacle of a man who would throw away his millions with both hands for the mere pleasure of fighting the people's battles.

### Iowa and Alberta Unanimous Upon The Trade Question

Prouty of Iowa is the man who in the United States congress moves a resolution to extend the list of reciprocal articles to include manufactures as well as agricultural products.

Iowa, of all the states in United States, is the one that most resembles Alberta in the nature and class of its pursuits and products. Any argument in favor of free trade that will apply to Iowa should apply with equal force to Alberta. If they in Iowa can stand for free trade, certainly we in Alberta should be able to.

What is wanted in the Dominion house is an Alberta member who will arise to move that the Iowa representative's proposal be accepted and manufacturers be placed on the free list.

### British Columbia Dangerously Close To a Land Scandal

British Columbia has something very like a land scandal on its hands at the present time, and a situation has been created by the McBride government which would be difficult to explain by any of the common rules of honesty.

The province of British Columbia owns all her lands, but instead of opening them for homestead, offers them for sale. The price has ranged from \$5 down to \$1 an acre, according to whether it was third, second or first class land. By an order in council the price has been just about doubled, and parties who have staked a million acres or so south and north of the Peace River block on the understanding that they were to get it for \$5 an acre or thereabouts, find that they will have to pay \$10 to \$20 an acre.

So far, of course, the government's defence is easy. British Columbia does not wish to encourage speculation, and the land adjacent to the block is worth the price asked, anyway.

But the suspicion of corruption arises from the fact that just about the time the price was about to be advanced, a considerable contingent of Victoria's "financial" set seem to have learned of the intention, as they made purchases of government land in the interior aggregating millions of acres.

Some very very looking deals have been pulled off under the McBride government, but this last one looks about the worst.

#### JUST PARAGRAPHS

Wouldn't it be as well to put this man Ensor on the chicken oath and find out just where he contracted the hallucination that he could manage a police force.

Spring comes in on time, the cars still run, the calendar keeps its appointment and not even the post office clock has stopped, nor anything happened to the diurnal rotation of the earth. And Mr. Bouillon in Seattle all the time.

With the Dominion government ready to bet you 160 acres of land against your \$10 that you cannot live on it for three years, a man would be a piker who would not call that on days like these.

If there are any pessimists in Alberta, they will find the antidote by watching the crowd at the land office.

## A Money Maker

We give below a comparison of prices on the three principal retail streets of the City of Edmonton, which will prove to you that the property mentioned below is a snap that will not be on the market long.

Jasper Ave., between 5th and Queen's; \$800 to \$2,050 per front foot.  
 First St., between C.N.R. tracks and Jasper; \$800 to \$1,300 per front foot.  
 Namayo Ave., between Isabella and Jasper, south of C.N.R. tracks; \$400 to \$205 per front foot.

Note—The property mentioned below is the only property for sale in above section on Namayo for \$205 per front foot.

The time to buy property on a street with a future is when it is cheap, when the investor can erect a building on his property and readily rent same, deriving an income of about 10 per cent. net on this investment. This income, together with the increase in value of property located on the right street in a city whose future is assured, where there will be such development that will make prices go only one way, and that is up, should be sufficient to convince the most conservative buyer that

## 66 ft. on Namayo Ave.

with two houses on same, at a price of \$17,500, on easy terms, located opposite "The Galathea Departmental Store," a store doing a retail business of \$150,000 per year, is worth more than the money asked.

We would gladly have you compare the price with the prices of other adjoining properties. We would be pleased to prove, upon calling at our office, that this property is a

## Revenue Producer

We will see the day when Namayo Avenue property will sell for \$800 per front foot, and that statement is not "far-fetched." You can also be certain that this property will sell for \$25,000 before Sept. 30th, 1911.

Property mentioned is on sale at the above price until Saturday next, April 15th. Determine the advantages that the street has as a retail center—take a walk and see for yourself the amount of business that is transacted—then after having convinced yourself that this property offered is a still edge proposition, call at our office, give us a deposit to bind the bargain, and we will see to it that the goods are delivered.

#### "REFORM MAYOR" OF CLEVELAND DIES SUDDENLY.

(Continued on Page One.)

ern mules. When the first electric motor was brought out, Johnson wanted to electrify his line, but his associates objected and rather than offend them Johnson sold out his interest and went to Cleveland.

There he first met Mark Hanna, who later became his bitterest political and business enemy. Hanna was compelled to follow suit with his line, the "Little Consolidated." From that time on the two men became rivals in the business world. About the same time Johnson, with several associates started a plant for the manufacture of "cinder rails," which he had invented and of other rails at Johnston, Pa., and also a big steel plant at Lorain, O. All of these undertakings, like his street railway enterprise, were highly profitable and Johnson accumulated a considerable fortune.

Municipal politics in Cleveland finally claimed Johnson's attention. Corporate aggression and graft made the town nothing more than a "farm" which the politicians worked. An attempt was being made to give away valuable lake front rights to railroads. Johnson opposed this, and to make his opposition effective, ran for mayor. In that campaign he first raised the battle-cries "three-cent fares," which subsequently became the issue of all his campaigns and which earned him the bitter enmity of all the street railway interests of the country.

Johnson, who had become a single-tax advocate and enthusiastic supporter of the franchise to carry passengers at three cents a head. He met with great opposition. After years of bitter warfare he finally succeeded in wresting from the companies nearly all their franchises and in compelling them to sell six and seven tickets for a quarter. Finally, through a holding company, Johnson was able to begin operating in Cleveland the city's own car line. Strikes, instigated by the opposition, threw his plans into confusion, and when the election came, a referendum, essential to Johnson's plans was defeated.

At the same time financial reverses swallowed Johnson's wealth and he was compelled to sell his line mansion on Euclid avenue and retire to a modest cottage. But with undiminished courage and enthusiasm he continued his fight for reform, but was defeated for re-election as Mayor of Cleveland in 1900. It hence compelled him to resign his public life, but it was his intention to resume his fight for reform at the earliest opportunity.

#### SCORE OF LIVES LOST IN WRECK.

(Continued from First Page.)

gling in the water when the steering gear of the launch broke and the rescuers were left powerless.

One passenger trying to reach land on a piece of wreckage was hurled against the rocks at Goat Island and losing his hold on the wreckage was drowned.

#### ACCOMMODATION FOR SCHOOL TEACHERS

Those Who Have Rooms to Rent Requested to Notify Superintendent Edmonton Schools.

"Lack of accommodation for the numerous teachers and others who will attend the teachers' convention here next week, promises to seriously mar the proceedings, if some arrangements are not made in the near future.

J. McCaig, superintendent of Edmonton schools, draws special attention to this, and asks all those who have rooms to rent or board to furnish, to notify him in his office in the Mortlake block.

The convention is only the second to be held under the auspices of the newly organized association of teachers. The first was held in Calgary last year.

The question of the place for the third will be one of importance.

At least 700 to 800 teachers will be in attendance, and prominent educationalists who see the advantage of having the convention at Edmonton, and of striving to make Edmonton a convention city, are naturally worried over the lack of accommodation.

Hon. C. H. Mitchell, minister of education, will be one of the principle speakers, and Dr. T. J. O'Connell, president of the university, will deliver an address on "Some present day problems in education."

If there's a new thing out in town's purchasing, you'll be sure to find it at Kelly & Moore's.

See the windows of the Standard Clothing Co. for price announcement and exceptional values, 112 Jasper Avenue, E. \$50 in gold or \$70 in goods given free each Saturday at the Standard Clothing Co., Ltd., 112 Jasper Avenue, E.

**Shilo's Cure**  
For all kinds of skin eruptions, such as eczema, itching, and all other skin diseases. It is the only cure for these troubles and is sold everywhere.

#### ORDER ISSUED BY MR. JUSTICE BECK

Stays Proceedings in Action of Government to Secure \$1,400,000.

An order staying proceedings in the action brought by the provincial government for the recovery of the \$1,000,000 of Alberta and Great Waterways railway monies paid into court by the Union Bank, and \$400,000 paid into court by the Dominion Bank, until after the ultimate determination of the action against the Royal Bank and the companies, will come into effect on Wednesday of next week in accordance with the decision of Mr. Justice Beck in Supreme Court chambers this morning. The pleadings of the companies in the Royal Bank case will be filed tomorrow.

The Royal Bank action will in all probability go to the privy council for re-consideration, but until it has been finally determined the actions by the provincial treasurer to obtain control of the sum of \$1,400,000 paid into court by the other two banks will not be tried. The decision of the highest court upon the Royal Bank case will be binding in respect to monies paid into court by the Union and Dominion Banks, in so far as it hinges upon the issues between the province and the companies, and not the issues which may be peculiar to the action against the Royal Bank.

In making application for a stay of proceedings in chambers this morning, Park Ford, K.C., counsel for the Alberta and Great Waterways railway and the Canada West Construction Co., stated that all the issues between the province and the companies were identical or no. Until the defence of the companies in the Royal Bank case was decided, there was no guarantee that the companies would not introduce new matter into their defence.

Commissioner Bouchon, who has been in Seattle on business for the past three weeks, is expected to reach the city on Thursday.

#### PILES CURED QUICK

Send For a Free Trial Package and You Will be Overjoyed at the Astonishing Relief and Cure.

Anyone who has piles wants quick relief. If you can't wait, drop into the next drug store and get a 5c. package of Pyramid Pile Cure. You will find relief right away. The cure comes quick and is a complete, permanent cure. Old, chronic cases, that itch all the time, bleed, protrude and are very severe of utter misery. Write to the Pyramid Pile Cure Co., 271 Pyramid Bldg., Marshall, Mich., for a free trial package by mail in plain wrapper of Pyramid Pile Cure. Such cases have tried a dozen remedies, they bleed in sitting, expect to be operated on, are sick, weary and discouraged. They need this free trial. It will be a revelation. The relief will bring back their hopes of a cure. The remedy will turn that hope into reality. A man in Indiana paid 70 had been over 10 years with bleeding piles. The free trial of Pyramid Pile Cure was his first relief. He was thoroughly cured and has lived his remaining years in peaceful enjoyment, doing such odd work as would occupy his mind, and going about with none of the restraint and hardships that always accompany piles. Don't neglect to send for this free trial, and remember you can always obtain the regular 5c. package in any drug store and be sure you get what you ask for.

## ARISTOCRATS OF CANADIAN HORSEFLESH GATHER IN CITY

### HORSES NOW HERE FOR RACING MEET ARE WORTH BIG FORTUNES

TWENTY-FOURTH OF MAY EVENTS WILL START BALL ROLLING IN EARNEST AND THEN WILL FOLLOW STRENUOUS CAMPAIGNS THROUGHOUT CANADA—VISIT TO STABLES AT EXHIBITION GROUNDS ONE WELL WORTH MAKING.

It's an assured fact that Edmonton this season is to have the finest racing in the history of the great sport in this or in any other city in Western Canada. And a visit to the Exhibition grounds stables is all that is needed to convince the most skeptical that this is certain to be the case.

To one who has not visited the stables, it is difficult to convey to him an idea of what greets the eye. There is present the finest array of horseflesh ever gathered together in Alberta, representing in monetary value hundreds of thousands of dollars, and the best stock brought together at any time in any place. Leaving out the runners—of which there are scores of dandies—one finds among the trotters and pacers some crack performers who have been through the game and have brought their owners fortunes. And among the green ones, there are dozens upon whom the greatest hopes repose that they will accomplish wonders on the tracks when they are sent out after the rich purses that have been hung up throughout the Canadian racing circuit.

These speedy ones have been brought here from all sections of Western Canada, a large contingent being from Prince Albert and Reston, Man., but quite a few cracks are owned right here in Edmonton and, judging by the talent, it would seem safe to predict that quite a good-sized chunk of the coin of the realm to be offered this year will find its way into the coffers of local horsemen.

Quite a number of horses have been wintered here while many others were but recently brought to Edmonton for final preparations for the meet of May 24th, which will be the real opening of the racing season in the West. Following the Edmonton meet, most of the classy ones will be taken to Battledore. Then will follow the meet at Saskatoon and then Prince Albert. Following this will come the big racing meet at Winnipeg, followed by Brandon and Regina. All will then come back to Edmonton for the big meeting in August during the Exhibition. And then it will be "Hike to the coast," Victoria and Vancouver will be invaded, to be followed with Spokane during the grand Interstate Fair.

A visit to the Exhibition grounds stables is a most interesting one. The sporting editor of The Capital was the guest of the McLeod Brothers yesterday afternoon in an automobile trip to the centre of activities of horse racing and it proved a rare treat.

J. B. and R. C. Ireland, of Reston, Man., have some fine animals in hand, one particularly, a son of Onward, being regarded as one of the best in Canada. Wellington D., by Deverguis, dam by Royal Riseluck, holds the track record in Edmonton for a mile. H. M. C., is one of the crackerjacks, his best rated time being 2:24 1/4.

#### JUNIORS WIN RACE

The Juniors of the Y. M. C. A. spring a large surprise on the Senior last night in the week-end race, winning in 25 to 41, routing the handicap of all that had been given them. The teams were as follows: Seniors—Walt, Farney, Freeman, Gorman, Britton and Carl. Juniors—Amper, Anderson—Kemp, Stanton, Butcher, Whitlaw, Brocky, Bill, Teurl, Azar.

#### TOURNEY TRAP SHOTS

Springing the trap today at the annual tourney of the Illinois State Sports Association, which is being held at the Illinois State Fair grounds, was a very successful one. The tourney was held on Thursday, with ten events of trap, rifle and target shooting.

#### BOSTON DOG SHOW OPENS

Boston, Mass., April 11.—With an entry list of 1,000 dogs, the annual dog show for amateurs and variety, the annual dog show in Mechanics Building today, in continued Friday. The show this year is notable for the large representation of the rare breeds of dogs. Nearly all of the famous breeds of the United States and Canada are represented.

### Sports of All Sorts

When Jack Johnson leaves the San Francisco County Jail after serving twenty-five days, a good plan would be to point him south and send him up for three months. Then some "white hope" could be sent and get him into a ring inside of a few weeks and would stand a chance of beating the far out of the big fight.

It seems to be a case where Johnson has been going at a rapid pace of late months and has been squandering his money like a drunken sailor for the past few months. If such is the case, Jack will knock himself out within a brief period.

Is hockey on the decline? Not so you would notice it. Port Arthur is reported to have made an offer to Fred Lake, the Ottawa point, of \$1,000 for his services from December 1st to April 1st. Port Arthur is doubtless determined to make a strong effort to top the Stanley Cup next season.

Tom Vardon has resigned his position as professional at the St. George Golf club, Sandwich. He is going to America.

A wonderfully ingenious motor-car engine which uses coal as fuel, instead of gasoline, has been patented, and is proving highly successful.

William Scott, Everton and Ireland's famous goalkeeper, recently received a present of a gold watch and a shilling from some anonymous armistice.

Because Hubert Latham said one duck from his gun, he has been notified by the vicarious officials that he must leave the team.

Montague Hopton, who has made so many unsuccessful attempts to swim the channel, is practicing a new trick known as the "Northern kick," which is evidently expected to increase his chances of success.

Prince Wilton, second son of the king of Sweden, is to be one of the competitors in the big Swedish motor race from Stockholm to Stockholm.

The inventor of Portland cement, Joseph Aspholm, has recently celebrated his 100th birthday, learnt to the bicycle and the age of eighty-seven.

A four-day tournament open to all, which will be inaugurated in Britain this year, will be for two cups and \$12,500 in money prizes.

Fifty-six thousand two hundred and fifty pounds worth of foreign aeroplanes were imported into Great Britain last year, but the aeroplanes exported were only worth \$77,920.

H. M. Grant, who has been given his "hug" international cap for Scotland against Wales, is one of the youngest men ever to be selected for his country. He is only seventeen years old.

Frank J. Gagli, the American millionaire sportsman, has given \$100,000 for the construction of a special motor road between Washington and Richmond, a distance of 120 miles.

In a recent South-Eastern Railway exchange, "Tim" Joyce, the Spurs' big goalkeeper, a goal-keeper and ten the ball clean over the goal-line at the expense of the ball.

Sellers, Prospectors and Survey Parties are being outfitted here daily. We know their wants—and know your wants. You can't do better than let us fit you out.

HUDSON'S BAY CO.

### Pearce and Kirk Made Some Catch

L. L. Pearce and J. M. Kirk are disciples of Isak Walton, who are not in the habit of bragging of the many record catches they make during seasons, but when about three months ago they got nearly one hundred in three hours of fishing through the ice in Lobstick Lake, they figured it was going some. Messrs. Pearce and Kirk number all. In order to put themselves in right with all, they sent many of the friends a photograph of themselves and the result of the catch. And it's certainly a crackerjack advertisement for Alberta as a haven for sportsmen.

### CONDITIONS IDEAL HERE FOR FLYING

R. C. ST. HENRY SAYS IT WILL BE JUST FINE IN EDMONTON FOR TRIPS.

After ascertaining from the weather man the altitude, humidity, velocity and general weather conditions, R. C. St. Henry, is to give exhibitions of flying in a Curtiss biplane in Edmonton on Friday and Saturday, April 25th and 26th, declared that conditions were ideal and that he expected three or four thousand people to see the biplane. He has never participated in a twenty-three mile wind is not so strong as the weather man announced yesterday that the average wind was six miles between four-fifths and five-fifths in the afternoon. St. Henry arrived and declared "dandy."

Accompanied by Emil Kreschke, his business manager and financial representative for the Curtiss company, St. Henry arrived in Edmonton yesterday morning and immediately put his biplane in the air. In a few days, Mr. St. Henry, of the Curtiss company, will give here in Edmonton the mechanical details for the exhibition.

Arrangements were closed yesterday for the exhibition grounds for the biplane, which are to be extensively advertised and are confidently expected to bring thousands of visitors to this city. Mr. St. Henry yesterday afternoon received a wire from the Curtiss people announcing that a new altitude had been hung up. Fourty feet up to the top of the biplane. This, having that salt lake in an altitude of 4,000 feet, really gave St. Henry a good time. The best previous mark was that made by Hovey last summer at 3,500 feet when he was unofficially credited with 10,400 feet for his first flight.

GETS NEW ESQUIMOES. Danger! Beaver White announced last night that he had secured a team of Esquimoes, has decided to let Fitcher White, the younger was expected to prove a better team than the team of the Eskimos the coming season.

BUCKLEY HATS. English Quality American Styles. Union Made—Price \$3.00.

### MAKING GRASS HOWING. IF THE FRATERNAL ORDER OF EAGLES, their organization of good fellows, and fraternization of the kind that is so valuable to the worthy and needy, keeps up the pace it is now doing, it will not be many months before the membership becomes such as to place the order in the very front ranks numerically. Every meeting witnesses several applications to be put through. President Joe Clark is all smiles when talking of the growth of the order. He is a member of the order and is a very active member. He is a member of the order and is a very active member. He is a member of the order and is a very active member.

Another important matter to be taken up at the meeting this evening will be the election of a secretary-treasurer. To succeed V. E. Green, who has held that office with credit to himself and the highest possible benefit to the club.

Tommy Murphy quit training for his bout with Parker Whitehead, as it has been postponed until April 15.

Additional sports on page 7.

### ARRANGE FOR BENCH SHOW IN EDMONTON

DETAILS WILL BE DEFINITELY DECIDED UPON AT MEETING OF KENNEL CLUB.

The final details for the holding of a month's bench show, contemplated to be the best ever conducted in Alberta, will be decided upon at a meeting of the Edmonton Animal Club to be held in the office of the Exhibition Association in the Johnson Block, on Second Street.

Another important matter to be taken up at the meeting this evening will be the election of a secretary-treasurer. To succeed V. E. Green, who has held that office with credit to himself and the highest possible benefit to the club.

Tommy Murphy quit training for his bout with Parker Whitehead, as it has been postponed until April 15.

### NEWS OF THE CITY

Two hundred settlers direct from the British Isles arrived in Calgary yesterday. The majority will locate in the vicinity of the southern city.  
A box social will be held in Cameron Hall (Namayo avenue, corner of Griesbach street) on Wednesday, April 12th, at eight o'clock, under the auspices of the Local True Blue Lodge. A prize will be awarded for the best decorated box. Musical selections will be rendered during the evening by well-known local artists. Everybody welcome.

#### HENRI GAGNON COMING

Edmonton music lovers will have the opportunity early in June of hearing the celebrated Canadian organist, Henri Gagnon, who has consented to visit the city to give a recital. Through the kindness of the management of First Presbyterian church, the recital will be held in this auditorium.

Mr. Gagnon, although still a young man, occupies one of the highest positions among the greatest of the world's organists. He is a native of Quebec city, and while still a boy gave his first recital at the Pan-American exposition in Buffalo, N. Y. Since then he has played twice at the Concerts Tonche and several times at St. Claude and Notre Dame churches in Paris. Mr. Gagnon is a pupil of Giesou and Chas. M. Widor.
